

General Dermatology

Austin, TX
On-Site Employer Health
Part-time or Full-time

*This is an outstanding opportunity for a dermatologist to join our team in an **employer-based**, on-site healthcare setting at a large, globally recognized technology company. This is not private equity or private practice.*

About the Practice

Crossover Health partners with leading employers to deliver on-site, integrated primary and specialty care. Our dermatology practice is embedded within a world-class technology campus. We operate within a physician-led, team-based model that prioritizes clinical quality, access, and the wellbeing of both patients and providers.

Position Overview

Join a dermatology practice where long, unhurried visits (30 minutes per patient) are the standard — not the exception. You will provide comprehensive medical dermatology to a working-age population of company employees and their families. This is not workers' comp. The role offers a predictable schedule and freedom from the administrative burden that drives physician burnout.

Why This Opportunity Stands Out

- No private insurance billing for visits or procedures, therefore NO coding. Focus entirely on medicine.
- Long appointment times that allow thorough evaluation, patient connection, and education.
- Efficient clinical support — Integrated care team and a nurse dedicated to medication prior authorizations.
- Practice located on a major technology campus with exceptional facilities, including a patient pharmacy, physical therapists, and nurses that perform onsite lab draws, among other services.

Qualifications

- Board Certified or Board Eligible in Dermatology.
- Active medical licensure, or eligibility to obtain prior to start date.
- Strong clinical and communication skills with a patient-centered approach.
- Commitment to high-quality, evidence-based, patient-centered care.

What We Offer

- Competitive hourly pay.
- Generous PTO, CME allowance, paid sick leave, and 401(k) with employer contribution.
- Malpractice coverage provided.

How to Apply

Please submit your CV and a brief email describing your interest to me at Jennifer.aranda@crossoverhealth.com

Disclosure- The contents above were generated by me and not Crossover Health. I am just hoping to find like minded people to work with. Feel free to DM or text me at 214-435-4586. I have been working at this location for 10 years and can share my personal experience. The crossover recruiting team will be able to provide more exact details.

Note- there is a position in California with another tech client, but you would have to reach out to the crossover recruiter directly on that one. I am however happy to give general information about my experience working for Crossover Health.
